GOVERNOR HONORED

At a dinner sponsored by the Mississippi Exchange Club for the Salvation Army at the Heidelberg Hotel on Monday night of last week, Governor Thomas L. Bailey was honored for having rendered distinguished service to the Auxiliary Service of the Salvation Army. For the past twenty years he has been a member of the Advisory Board of the Salvation Army at Meridian. Governor Bailey greatly appreciates the distinguished honor paid him by what many think is the world's most unselfish organization.

PUBLIC WELFARE DEPT.

The biennial report of the Department of Public Welfare being made to the Legislature will relate the following facts: "At the close of the current biennium, 27,537 old persons were receiving an average monthly grant of \$15.42 each. Some were receiving less than this and others were receiving up to our state's maximum of \$30.00. The variation depends upon the need of the old person and the resources he has actually available to meet his needs. The difference between what he must have to meet the essentials of living and the resources available for his needs is called the 'Budgetary Deficit.' At present, throughout the state as a whole, we are able to give each old person enough money to meet approximately 72% of this budgetary deficit. This is a great increase over what we were able to do in the 1942-43 period, as shown by the fact that the average grant in June, 1943, was \$9.72 and represented only 50% of the budgetary deficit. We are very glad that we are able to meet 72% of the total need now, and we hope in the future we will be able to meet 100% of these minimum needs."

WINGO PRESIDENT

Earl Wingo, prominent lawyer of Hattiesburg, was elected president of the Mississippi State Bar Association at the annual meeting in Biloxi last week. MORE LUMBER

The Forestry Department, with headquarters in Jackson, reports that in the month of July lumber production in Mississippi increased 20% over that of June. The July production is given as 111,538,000 feet as compared with 89,827,000 feet in the month of June. The Forestry Department is urging the people of Mississippi to plant trees and conserve the forests for the future welfare and prosperity of the state.

STATE BUDGET

Press reports indicate that the state budget for the biennium beginning July 1, 1946 will be substantially \$57,400,000. These figures are not official, but may be approximately correct. The Budget Committee will make an official report in the near future.

Hancock County Makes Honor Roll

According to news releases from the state office Hancock County made the Honor Roll in the recent War Fund Drive with Mrs. George R. Rea wearing the laurel crown.

The quota assessed the county was \$3825 and the total amount subscribed was \$286.08 an excess of \$461.08. Somebody said it could not be done but she did it.

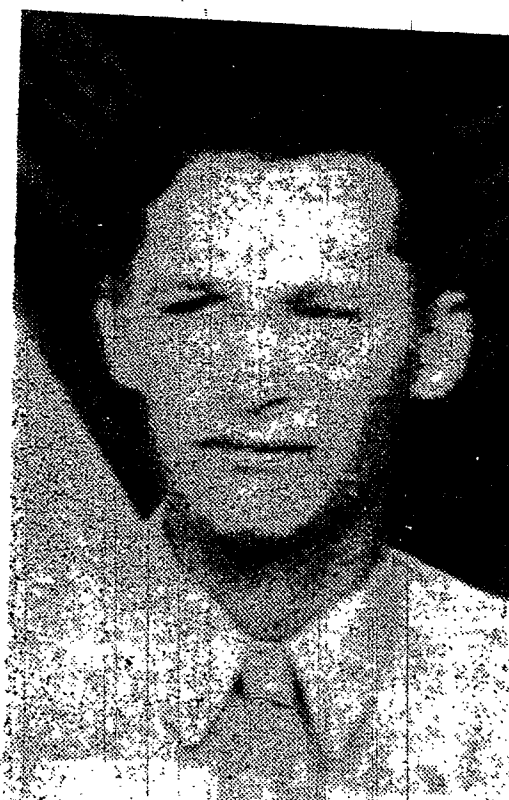

This is a splendid showing for the county and shows that when the crucial moment comes Hancock County does not need to be reminded that she must give—she gives. This shows cooperation, understanding, loyalty and faith. It also shows untiring effort on the part of the workers and shows efficiency and leadership on the part of Mrs. Rea and her co-chairman Mrs. Roger M. Boh.

Will Hancock County do as well in the War Loan Drive now launched? The public thinks she will and she always does what is expected of her.

STANISLAUS ANNUAL HOMECOMING DAY THIS SUNDAY, NOV. 11

Football Game Main Feature Of Occasion.

Due to the end of the War and the availability of facilities for traveling Brother Casimir president of St. Stanislaus thought it fitting to renew the annual custom of homecoming for the alumni. In keeping with the exigencies of the War homecoming had been suspended for three years.

On this traditional day the Grads and Dads of the students return to their Alma Mater to pay their respects and to renew old acquaintances. At the same time they have the pleasant opportunity of indulging in a bit of thrilling reminiscence of their own boyhood days here.

Registration of the Alumni will be held as usual in the school library next to the main office.

The feature attraction of the day's program of entertainment will be the football game between the St. Stanislaus Rockchaws and the Golden Bears from Catholic High of Baton Rouge, La. The latter has one of the outstanding teams in the State having lost only one game and that to St. Aloysius of New Orleans, La. in their last encounter they defeated Baton Rouge High, 40-0. The last time the Rockchaws beat Catholic High was in 1942 when they trounced them 19-0. Since that time the visitors have won the only other game played by a score of 51-0. The fighting Rocks are victory hungry and will be at their best in this game.

Circular letters announcing the homecoming affair will probably be sent out in the very near future; however, members of the Alumni who receive copies of the Rock-A-Chaw are hereby requested to spread the good word around freely. As so many members of the organization have moved or have otherwise changed their former domiciles that a complete revision of the Alumni address record may be necessitated.

Meeting of K. Of C.

On Monday night at the regular meeting of the Pere Le Duc Council of the Knights of Columbus, the members pledged to raise \$25,000.00 in E Bonds during the Victory Bond Drive.

Victory Loan Drive In Second Week

Hancock County, now in the second week of the Victory Loan Drive, still has a good way to go before reaching its \$80,000.00 E-bond quota. The Schools-for-Victory program is spearheading sales, having a tremendously good effect. W. J. Gex, County Chairman, said this week end. The school students of the county, cooperating in the state-wide program, took pledges on November 1st, and on November 7th checked their pledges for E-Bonds purchased, the leader said. He complimented the schools of the county for their "fine cooperation," stating that the check-up would tell just how effective the school campaign has been.

"This is our final homefront task of World War II," the chairman stated. "There is a complacent tendency on the part of some unthinking citizens. Those who realize the costs of war, include occupation of conquered countries, bringing our men home, hospitalization of the sick and wounded, and mustering out pay for soldiers discharged, fully understand the importance of this last loan campaign. Our quota is smaller, but it is just as vital as any loan during the fighting. We must not fail in this opportunity to show our sincere appreciation to those who fought and died for our victory."

"Victory Bonds, besides the patriotism they represent, are also the best investment any person can make. We sincerely call upon county citizens to bend their efforts now to put this last drive over the top. Let's finish it early, and thereby earn our honorable discharge from war financing."

Only two counties reported over the top in the first week of the drive. They were Perry and Humphreys.

Miss Anna Mae Saucier was out in the car and at 11:30 drove out of the yard of the residence of Mrs. May Thomas and lost control of the car which struck the tree across the street. Thirty-seven stitches were taken in the right knee and the left knee was severely cut but the injury is not as serious.

A CALL

THE people of Hancock County, at last, have a civic organization through which they speak. The Hancock County Chamber of Commerce has been re-activated. It is a functioning organization. The membership selected a group of outstanding business men of the County as a Board of Directors. These men have met and have named their officers, having elected Mr. A. E. Voight, as President, Mr. Lucien M. Gex as Vice-President and Mr. A. A. Scaffide as Treasurer. The Secretary-Manager will be selected by the Board at a later date. The men who have been selected to head the Chamber of Commerce mean much to the community and business life of Hancock County. They are enthused and will work diligently to the end that we may have a greater and better Hancock County. Their work alone will not bring about all the changes that are necessary to improve our situation. It is necessary that every one join in the movement and lend every assistance possible.

We should realize that it will take the united efforts of the people as a whole. If you are asked to do a part of the work do not shirk. The part that may be assigned to you, may mean the success or failure of the enterprise. The responsibility after all rests with you as much as with the officers of the Chamber of Commerce. Your desire is the same as these men. It is to see the organization succeed. With success may come the realization of our dream, the development of Hancock County.

As we stated before, we should not expect miracles to be performed. It will take time and careful planning to bring about the desired results. We have every confidence in the leadership that has been selected, and we feel that these men are not going to let us down. They will point the way, make the necessary contact, speak for the people of the County and in turn we should be as good soldiers, follow our leaders, aid them in their work, and in days to come we may be able to say, with pride, I, too helped to build Hancock County.

TALK DOESN'T KEEP THE PEACE

GENERAL Jacob L. Devers, commander of the Sixth Army Group in Europe, calls attention to the time, some six years ago, when Czechoslovakia, Poland, Belgium, Holland, France, China, England, Russia and the United States were "trying to talk reasonably, quietly and intelligently" and adds that "in the end all of us had to fight."

The accuracy of the General's observation cannot be questioned. It completely disposes of the contention, often advanced by pacifists, that the way to world peace lies in disarmament and an effort to treat other nations and peoples fairly.

These facts might help keep the peace if all nations were anxious to avoid war, but the aggressors, Germany, Italy and Japan, have given the world a lesson which should teach us that peace is impossible if one nation wills warfare.

The General says that there will be danger of a new world war if public opinion becomes convinced that "war will never come upon us again." He suggests that when "some ambitious man" arises somewhere in the world to start aggression again, that there will be no peace unless, when challenged, we can lay down a winning combination of power. Otherwise he asserts, and accurately, "You may talk your head off in the interest of peace," but "all talk is worthless."

It may startle some Americans to hear that General Devers says it may require a 4,000,000-man American Army to insure world peace. His prediction is somewhat in line with the views of other military and naval leaders, although each apparently assumes that the atomic bomb has made more necessary than ever the need for this particular branch of the service.

High-ranking naval officers have suggested that the only possible defense against the atomic bomb is to be found in a powerful navy able to keep the seas clear of enemy vessels and to maintain bases from which to take effective action against aggressors or any nation threatening the use of atomic warfare.

From the Air Corps much the same prediction is made, with greater emphasis upon the use of aircraft in connection with instantaneous attacks upon any area from which atomic bombs threaten the peace.

From the Army comes the statement that the only way to end the atomic peril, when it exists, will be to occupy the territory upon which the menace is based and that the occupation can be effected only by the use of ground troops.

A TRUE STATEMENT

NO President of the United States ever made a truer statement than President Truman when, in recommending military training for young Americans, he declared that "peace must be built on power."

The general comment of news commentators is that the President stuck his chin out in recommending universal training over the protest of educators, church people and pacifists. The difference is that the President is charged with the responsibility for the safety of the nation and most of the objectors are sentimental idealists.

Just a hint to all people: Classified advertising, in our columns, produces surprising contacts between buyers and sellers and makes money for everybody concerned.

Buy War Bonds this month to the limit of your financial ability; the nation must have adequate funds to meet the expenses of a war that has been won but not paid for.

The nation has much to be thankful for as 1945 rolls toward the end and one of the greatest blessings was the termination of the war, with far fewer casualties than expected.

We are still waiting for the new marvels that are on the way from the manufacturing plants of the nation and we suspect that some of them will arrive. Now, who will have enough money to buy them?

Bay St. Louisians are going to be treated to a review of Harnett Kane's new book "Plantation Parade" with Mr. Kane giving the review at the Episcopal Parish House on Monday, November 26 at 3 p. m.

"Plantation Parade" the story of the great plantation days of Louisiana made its appearance on October 31 and entered at once into the list of National best sellers. This fourth volume by the famous writer and Native of Louisiana is not only acclaimed as his best, but it has broken all Louisiana records for book sales during its few days of publication. "Plantation Parade" is a glamorous pictorialization of the "grand manner" in Louisiana of another year. Taking up each of the white pillared plantations in turn Mr. Kane tells of their histories from their beginnings to the present day—their triumphs and joys and tragedies. Its scenes are the Mississippi River, False River, the Opelousas Region, Bayous Plaquemine, Teche and Lafourche, Cane River, Baton Rouge, Donaldsonville, the Feliciana country and other parts of Louisiana—a panorama of the state in its fabled beauty.

Harnett Kane has in the past few years won recognition throughout the nation as one of the leading interpreters of Southern life. Other books written by him are "Louisiana Hayride," "Bayous of Louisiana" and "Deep Delta Country" and each was a best seller. It may be interesting to readers that the Army and Navy sent 10,000 copies of "Bayous of Louisiana" to men in service. However, "Plantation Parade" has gone way beyond this in advance sales. It is the most elaborate of Kane's books and has 45 photographs, by leading Louisiana artists, drawings by Tilden Landry, illustrator of "Bayous of Louisiana" and a map of the plantation.

Bay St. Louis book lovers cannot pass by lightly this opportunity to

hear Mr. Kane again in one of his charming reviews of his delightful book "Plantation Parade" which is being brought to them by the board of the Bay St. Louis-Hancock County Library.

Copies of the book may be purchased at the library before the review or at the review and Mr. Kane will autograph them.

NOV. 21, 1945

AN IMPORTANT DATE FOR
THOUSANDS OF ARMY VETERANS
NOW IN CIVILIAN LIFE

Between now and November 21, thousands of Army veterans will reenlist in Uncle Sam's new volunteer peacetime Army. Because—men who have been discharged between May 12 and November 1 of this year and reenlist on or before November 21 will be able to return to the Army with the same grade as they held when discharged.

Men with six months of satisfactory service discharged as privates will, on reenlistment before November 21, be given the grade of private first class.

Men now in the Army who apply for discharge after NOVEMBER 1 for the purpose of reenlisting in the Regular Army will also retain their present grades, if they enlist within 20 days after discharge and before FEBRUARY 1, 1946.

"BEST JOB IN THE WORLD"

These special privileges are typical of the new law recently passed by Congress. Few opportunities for a lifetime career offer as many attractive advantages.

Can you think of any other job that would give you good pay, your food, clothing, quarters, free medical and dental care, world-wide travel, 30 days furlough every year, education and training in any of nearly 200 skills or trades, and enable you to retire with a life income any time after 20 years' service?

There isn't any! That's why a job in the Regular Army has been called "The Best Job in the World."

HIGHLIGHTS OF THE NEW ENLISTMENT PROGRAM

1. Enlistments for 1½, 2 or 3 years. (1-year enlistments permitted for men with 6 months' service.)
2. Men reenlisting retain their present grades, if they reenlist within 20 days after discharge and before Feb. 1, 1946. The same applies to men discharged between May 12 and Nov. 1, 1945, who reenlist before Nov. 21, 1945.
3. An increase in the reenlistment bonus to \$50 for each year of active service since the bonus was last paid, or since last entry into service.
4. 20% extra pay when overseas.
5. Paid furlough, up to 90 days, depending on length of service, with furlough travel paid to home and return, for men now in the Army who enlist.
6. Mustering-out pay (based upon length of service) to all men who are discharged to reenlist.
7. Option to retire at half pay for the rest of your life after 20 years' service—or three-quarters pay after 30 years. (Retirement income in grade of Master or First Sergeant up to \$155.25 per month for life.) All previous active federal military service counts toward retirement.
8. Benefits of GI Bill of Rights.
9. Family allowances for the term of enlistment for dependents of men who enlist or reenlist before July 1, 1946.
10. Choice of branch of service and overseas theater in Air, Ground or Service Forces on 3-year enlistments.

G. I. Joe Is A Man of Means

In the future, he'll be addressed as Gentleman Joe, if you please; the kid with the silk helmet and the swallow-tailed field jacket.

It has been revealed that the G. I. buck private has an income which equals that of a civilian with \$1,923 a year salary.

Authority for the figures is headquarters, District No. 7, 4th Service Command at Jackson which pointed out yesterday that if the soldier were required to provide his own food, housing, clothing and medical care, he would be subject to an annual outlay of \$1,323. In addition, the private receives \$600 a year in cash which is his to spend or save as he pleases.

If the fact that he pays no income taxes and that he can buy many items at prices lower than those charged civilians were taken into consideration, the amount would undoubtedly go well above \$1,923 a year, it was stated.

The figure of \$1,323 a year for living expenses in Mississippi was reached as follows: Rent, \$360; Food, \$600; Work Clothes, \$110; Dress Clothes, \$193 and Medical Care \$60. The amounts were obtained from authoritative sources, it was stated.

STANISLAUS NOTES

(By Andrew Martinovich)
Last Sunday the Stanislaus and Fortier football teams gave a large crowd an exciting game at the Stanislaus football field. Both teams were playing well with neither allowing a score in the first three quarters. In the final quarter Fortier threw a pass over the goal. They made the extra point and that was the last score of the game, which ended with Stanislaus losing 7-0.

School Bands Entertain at Half

The crowd enjoyed the entertainment at the half as much as the exciting game. Fortier band was first on the field and showed good marching and playing. Our band which is smaller gave an excellent showing. Rodney Ranson, the band leader was at his best and everyone marveled at his baton twirling.

Homecoming This Sunday

The first peacetime homecoming for Stanislaus in four years will be this Sunday. Of course the real event of the day will be the Catholic High-Stanislaus game. All are looking toward an exciting game and the Rocks will be in there doing their best.

ORTIE THEATRE SUNDAY-MONDAY "TWICE BLESSED"

Preston Foster, Gail Patrick
In a M. G. M. Rollicking
New Comedy Hit With
The Wilde Twins

There's twice as much fun at the Ortie Theatre, where Metro-Goldwyn-Mayer's new comedy riot, "Twice Blessed," is to show, Sunday and Monday. Here is all-family entertainment that spells laughs from beginning to end. And here's why: Lee and Lyn Wilde, the cuddle-some blonde twins who played opposite Mickey Rooney in "Andy Hardy's Blonde Trouble," this time portray sisters trying to bring their divorced parents, played by Preston Foster and Gail Patrick, together again.

Foster, an easy-going, happy-go-lucky newspaperman, has brought his daughter up in just that fashion: she's become a slick chick, a terrific dancer and throws slang around in the best "hepcat" fashion.

Twin No. 2, on the other hand, is a sedate, bespectacled girl who has won national I. Q. contests and rates as one of the country's two whiz kids. That's because Mom is herself a career woman, an authority on child psychology and education.

When the girls decide to change places, the fun really begins. Neither the parents nor the girls' own boy friends, can tell them apart. When the slick chick is faced with a quiz contest and the "icky" kid finds herself in a jitterbug contest—well, come and see for yourself!

Marshall Thompson and Jimmy Lydon play the confused boy friends and turn in fine comedy performances. Foster and Miss Patrick, as the parents, are as always, most dependable performers, and the cast includes Richard Gaines, Jean Porter and Gloria Hope. Harry Beaumont directed with an eye to comedy and speed, and Arthur Feild is the producer. You'll enjoy "Twice Blessed."

Local Student Attending Traphagen School

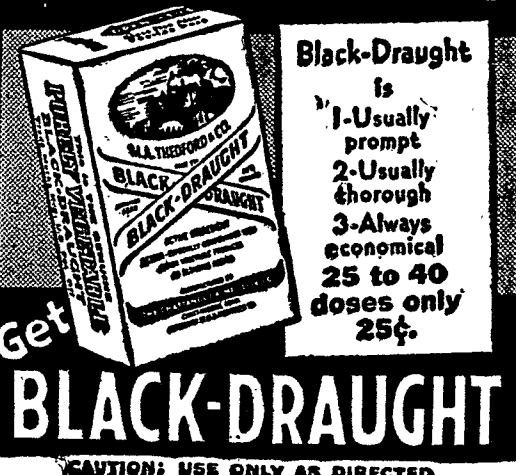

Mr. John Alton Erwin, son of Mrs. F. Erwin, of 112 Carroll avenue, has enrolled as a student of Costume Design and Illustration at the Traphagen School of Fashion, New York, where his course will include all the professional aspects of fashion in preparation for a career in this field.

He is already enthusiastically creating designs for entry in the first of three competitions which will be sponsored this term by well-known houses in the trade who are cooperating with the school in order to foster American design and encourage young fashion designers. He is also looking forward to opportunities for gaining practical experience in the inside procedure of staging fashion shows. The first presentation of the season is scheduled for the British Empire in offering a style show at a charity benefit tea in the Palm Court of the Hotel Biltmore.

Mr. Erwin's class is considered by their teachers to be one of the most promising ever to enter the school.

RECIPE FOR RECONVERSION

Home—happiness—and a job! That's the peacetime hope of our men in uniform. To make it a reality, America must get down to peacetime business—and plenty of it.

For the Telephone Company, this means the largest expansion program in the history of the telephone in Mississippi.

It's a big order calling for the expenditure of millions of dollars to provide telephones for all who have been waiting for them. This is one of our first jobs! A greatly expanded telephone program for our farmer friends is also in process. Expansion of long distance service is being scheduled too. It will include the installation of coaxial cables to handle more calls with speed and convenience for you, and provide more facilities for that exciting visual art—television. A mass of construction is to be done and a new service for motor vehicles is also in the offing.

These expansion plans are being translated into reality as fast as materials become available. There will be work. And work means payrolls. And payrolls mean prosperity. The benefits reach everybody, the advantages make themselves felt in every home, in every family. For it's that friendly partnership between Mississippi and the 220 men and women of the Telephone Company, working together for the advancement of their state.

There's every reason for confidence. What Mississippi and the telephone people did in war, they can do in peace. There will be a marshalling of Men, Money and Materials, to build a more prosperous future for our state.

Among Last To Leave Upper Agusan Valley

With the 31st Division on Mindanao (Special)—The war did not actually end until mid-October for a local soldier who will return from the Philippines with the 31st Division's 158th Infantry Regiment sometime in November. For he was among the last to leave the combat zone of Upper Agusan Valley in Central Mindanao.

This soldier is Pfc. James W. Bilbo, who has been with the 155th on its every mission—from the Wakde-Sarmi campaign in New Guinea to the mopping-up on Mindanao. When news of peace came, his company was fighting in the Waleo district of Upper Agusan. It was not until two weeks after V-J Day that Bilbo and his comrades were certain as to whether or not they would have to continue fighting. For it was then that the colonel in command of the Japanese forces there came in to make negotiations for the official surrender of approximately 2,200 Japs.

Since that day, those men have been handling the thousand-and-one details that are necessary in such a mass surrender. Recently, the last Japs were processed and sent on to the main island stockade. This gave Bilbo and his Buddies the chance they had been waiting for—to get back to the base camp and start packing their barracks bags for going home with the rest of the division.

Pfc. Bilbo is the son of Mrs. Agnes Bilbo of Bay St. Louis.
